

If you could give back to the hero in your life, wouldn't you?

I think we all would, given the opportunity.

We missed ours. \$12,000. That's how much we missed out on giving back. One simple piece of knowledge would have made the difference between \$12,000 and zero: Homes for Heroes.

As a veteran myself, I don't want anyone else to miss out on savings like this. Simply by using a Homes for Heroes realtor, you can save *thousands* on the purchase [or sale?] of your home.

Think of the amazing things you could do with that savings!

Let me help you avoid the costly mistake my husband and I made. You are a hero. You make our community better every day. Let me honor your service by saving your hard-earned dollars and providing you the best care in realty.
